

THE UTAH DEPARTMENT OF TRANSPORTATION Invites You To An ACCELERATED BRIDGE CONSTRUCTION WORKSHOP

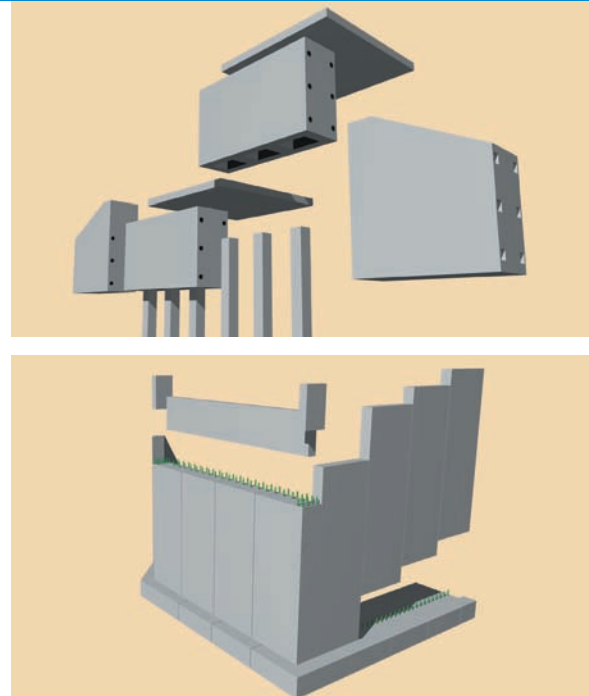

Wednesday, February 18, 2009

8:00 a.m. to 4:00 p.m. at The ECenter

3100 So. Decker Lake Dr., West Valley City, UT • 801-988-8800

Workshop Description

The Utah Department of Transportation has a goal of making **Accelerated Bridge Construction (ABC)** a standard practice by 2010. In order to achieve this goal, the Department will develop standard details for accelerated bridge components. This will include, among other things, *new precast bridge girders, precast substructure components, culverts and wildlife crossing structures*. The Utah DOT values the input from our industry partners; therefore, this workshop has been scheduled to present the semi-final ABC standards and gather input from all stakeholders. This workshop will build on the previous workshop held in September 2008.
